Class of 2022 Heads Toward 5th Powderpuff Win For Regina

With the game fast approaching, the **Panthers** have a lot of pressure to win the September 18th game. With the first win of the streak won by the class of 2018, the class of '22 has been training hard every week to uphold the Regina tradition and keep the trophy at home. The powderpuff tradition is one passed down from senior class to senior class. Not only is it an important event for the senior class, it reaches all members of the Regina community - past, present, and future students alike. Class of 2021 alumna *Elena Zakolski* says "The excitement and the rush of powderpuff is a once in a lifetime experience, and I wish the best for the Panthers to get that 5-peat and to beat Marian!"

Led by Head Coach **Bill Madek**, the Panthers started practice on August 26 with nothing but their wits and their *hunger for victory*. With a team of fantastic coaches, the girls have been working hard to learn the plays and get in good shape, growing closer as a team in the process. Powderpuff isn't just about the game, it also helps to being the class together. This unique experience will allow them to grow closer as *sisters*, and will leave a lasting impact on them when their time at Regina comes to an end.
